

MonsterFactory

```
classDiagram
    class MonsterFactory
    class BossFactory
    class MonsterFactoryConcrete
    BossFactory --|> MonsterFactory
    MonsterFactoryConcrete --|> MonsterFactory
```

The diagram illustrates a class hierarchy. At the top is the 'MonsterFactory' class. Below it are two subclasses: 'BossFactory' on the left and 'MonsterFactoryConcrete' on the right. A horizontal line connects the two subclasses, with an upward-pointing arrow from the center of this line to the bottom of the 'MonsterFactory' box, indicating that both 'BossFactory' and 'MonsterFactoryConcrete' inherit from 'MonsterFactory'.
